Music Animation Machine Demonstration Reels

by Stephen Malinowski

Background

In 1989, information design specialist Edward Tufte encouraged me to publish samples of my animated graphical scores. This led to the Music Animation Machine First Demonstration Reel (a VHS videotape released in 1990) and later (1996) to a second VHS release. In 2006, the two programs were consolidated into a single DVD (over-optimistically titled "DVD #1"). Most of the contents of the DVD are now available for viewing on YouTube (see below), and hundreds of additional animated graphical score videos are available on the YouTube channel **smalin**.
