## Visual Approaches for Music Harmonic Analysis Evaluation Study

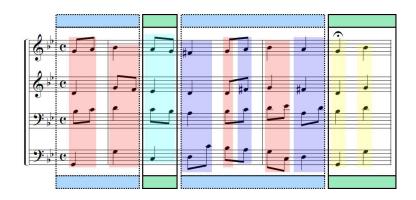

Task 1

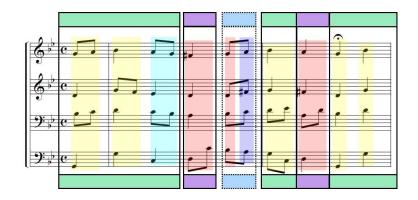

Given the following chorale:

Select the best harmonic analysis:

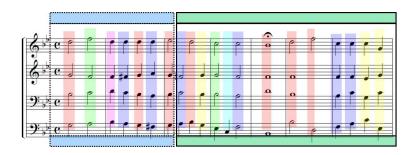

Comments: Report here the motivations behind your choice

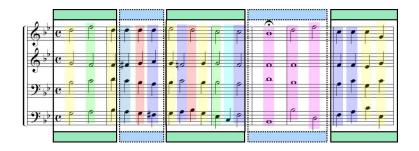

## Task 2

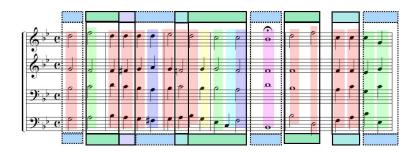

Given the following chorale:

Select the best harmonic analysis:

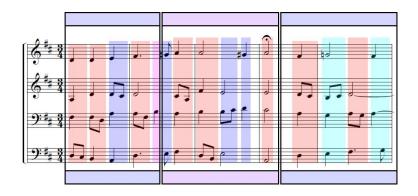

Comments: Report here the motivations behind your choice

Task 3

Given the following chorale:

Select the best harmonic analysis:

Comments: Report here the motivations behind your choice

## Final questions

| • Q1: With this approach is evident the relationship between tonalities and colors.    |                            |            |            |            |                                 |
|--|----------------------------|------------|------------|------------|---------------------------------|
|  | Strongly disagree          | $\bigcirc$ | $\bigcirc$ | $\bigcirc$ | ○ Strongly agree                |
|  |                            |            |            |            |                                 |
|  |                            |            |            |            |                                 |
| • 02.  | In the Circle of fifther   | imila      | n ton      | alitia     | a correspond to similar colors  |
| • Q2:  | In the Circle of Inthis, s | шша        | r ton      | antie      | s correspond to similar colors. |
|  | Strongly disagree (        | $\bigcirc$ | $\bigcirc$ | $\bigcirc$ | ○ Strongly agree                |
|  |                            |            |            |            |                                 |
|  |                            |            |            |            |                                 |
|  |                            |            |            |            |                                 |
| • Q3: With this approach is evident the difference between major and minor tonalities. |                            |            |            |            |                                 |
|  | Strongly disagree          | $\bigcirc$ | $\bigcirc$ | $\bigcirc$ | O Strongly agree                |
